

# D2000

Retail, Cash, Counter

RETAIL ENVIRONMENTS NEED DOWN-TO-EARTH BUT COMPREHENSIVE CASH COUNTING SOLUTIONS. FASTER AND MORE ACCURATE THAN HAND COUNTING, D2000 OFFERS SIMPLE CASH RECONCILIATION AND AUDIT FUNCTIONALITY FOR COINS AND NOTES.

Designed for businesses that want to streamline their cash processes for tighter control and more time for other tasks. It can count an entire till in under one minute. Faster counts enable more audits and checks to be made, and a complete audit trail can be created, giving managers information that can be swiftly acted on when discrepancies occur. The D2000 can also connect to a Tellermate printer for production of mini reports that can be signed for accountability.

Preparing cash for banking is quicker as the full bag and full bundle mode alert the user to errors, ensuring that deposits are correct first time and giving an instant view of takings.

**“Can count all notes and coins in a till in under one minute.”**

**NEW T-i\* FEATURES :**

- Large Display
- Innovative Design
- Damage Resistant
- Future Proof
